PROFESSIONAL SUMMARY

Self-driven Class 12 Computer Science student with 2+ years of hands-on experience in Linux system administration, network infrastructure, and technical support. Proven track record of independently learning and deploying production-level solutions including Ubuntu server configuration, SMB file sharing, DNS filtering, and CCTV installations. Currently maintaining a home lab server environment while regularly providing technical support. Active in the open-source community with ongoing GitHub projects.

EDUCATION

Government Higher Secondary School, Thuduppathi

Class 12 – Computer Science & Mathematics Group | *Expected Graduation: May 2027*

SSLC Board Exam Score: **409/500 (81.8%)**

TECHNICAL SKILLS

Operating Systems & Server Administration

- Linux Administration: 2+ years experience with Ubuntu 20.04/22.04 LTS server configuration, user management, and system maintenance
- File Sharing: SMB/Samba server deployment, cross-platform connectivity, permission management
- DNS Services: Pi-hole DNS filtering, network-level ad blocking, DHCP configuration, and query logging
- Remote Administration: SSH, PuTTY, terminal-based system management and troubleshooting

Hardware & Networking

- Computer Hardware: Component installation and troubleshooting across desktop and laptop platforms
- Network Infrastructure: TCP/IP fundamentals, home lab networking, router configuration, LAN setup
- CCTV Systems: Complete installation workflow - BNC/Ethernet connector termination, DVR configuration
- Technical Support: Regular troubleshooting assistance - malware removal, performance optimization

Web Development & Programming

- Web Technologies: HTML5, CSS3, responsive design, GitHub Pages deployment
- Version Control: Git basics, GitHub repository management, collaborative development practices
- Embedded Systems: Arduino programming fundamentals, hardware interfacing concepts

KEY PROJECTS & EXPERIENCE

Home Lab Server Environment | *Ongoing | 2025-Present*

- Repurposed old hardware into dedicated home lab server running Ubuntu 22.04 LTS
- Actively maintaining multiple services: SMB file sharing, Pi-hole DNS filtering, development environments
- Implemented automated backup solutions and monitoring for system health and uptime

Ubuntu SMB File Sharing Server | *Production Deployment | 2025*

- Configured and deployed Samba file server on Ubuntu 22.04 LTS for centralized home network storage
- Successfully connected 5+ heterogeneous devices (Android, Windows, iOS, Linux) with proper authentication
- Troubleshot connectivity issues using system logs and network diagnostic tools

Pi-hole Network-Wide DNS Ad-Blocking System | *Production | 2026*

- Deployed Pi-hole DNS filtering solution for network-level ad blocking across entire home network
- Achieved 25%+ reduction in network advertisements across 10+ connected devices
- Monitored DNS query statistics using Pi-hole web interface, optimized blocklists

CCTV Security System Installation | *Collaborative Project | 2023-2026*

- Led complete reinstallation of 8-camera CCTV surveillance system for residential security
- Installed and terminated BNC and RJ45 Ethernet connectors for analog and IP camera deployments
- Configured DVR settings: recording schedules, motion detection, remote mobile viewing access

CERTIFICATIONS

• **Web Designing Certification** – Apollo Computer Education, Erode | 2023

KEY COMPETENCIES

Problem-Solving & Technical Troubleshooting

Analytical and systematic approach to diagnosing complex technical issues with proven troubleshooting methodology

Self-Directed Learning & Adaptability

Highly motivated self-learner with ability to acquire new technical skills independently through diverse learning resources including official documentation, video tutorials, and online courses

Technical Communication

Ability to explain complex technical concepts clearly to non-technical audiences developed through regular volunteer technical support

LANGUAGES

Tamil – Native proficiency

English – Professional working proficiency

Hindi – Elementary proficiency

CAREER OBJECTIVE

Seeking entry-level opportunities in IT support, Linux system administration, network infrastructure, or technical support roles where I can apply my 2+ years of hands-on experience. Eager to contribute to dynamic team environments while continuing professional development through mentorship and real-world problem-solving. Committed to pursuing higher education in Computer Science or Information Technology. Open to internships, trainee positions, or apprenticeship programs that offer practical experience and skill development opportunities.
